22

CT22 Cliptool 22 Hogringer

Designed and built for rugged use, made from stainless steel components. A Heavy duty tool giving years of trouble free use. Used in most fencing and mesh fastening applications.

Takes the Heavier CF22 Range of Galvanised, Triplelife and Stainless Steel hogrings the central magazine holds a strip of 50 rings.

R8

CTR8 Cliptool R8 Hogringer

A lighter weight tool than the CT22 mainly used for lighter fencing, chicken wire and rabbit fencing applications.

Takes the smaller CFR8 range of Galvanised, Triplelife, Aluminium and Stainless Steel hogrings the central magazine holds 50 rings.

90

CT2290 Cliptool 90 Hogringer

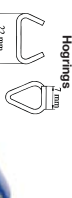

Similar applications to the CT22 but has a right angled magazine rather than a central one, down to personal preference.

Takes the Heavier CF22 range of hogrings.

22A

CT22A Cliptool 22 Air Hogringer

A pneumatic operated tool used mainly for factory assembled wire and mesh products. Also useful for a repetitious workload, can be used outside with access to a compressor.

Takes the Heavier CF22 range of hogrings, the magazine holds 50 rings.

35

CT35 Cliptool 35 Hartco Clipper

A World patented product designed to close Hartco steel clips, which are stronger and more durable than even hogring fixings. So strong they are ideal for building Gabion baskets, a lightweight tool weighs in at under 1.4Kgs yet powerful in operation made from Stainless Steel and GRP components. Safer because using Hartco Clips means you have no razor sharp wire ends to injure installers, livestock or the general public. Can be used anywhere even with gloved hands.

Takes the Heavy Duty CFH35 range of Clips available in HD Galvanised steel or 430 Grade Stainless Steel the curved adjustable magazine holds strips of 34 Clips.

35S

CT35SC Cliptool Solo

The Cliptool Solo is design to close a single Hartco Clip, because it has no magazine it can fasten a clip in most areas where other tools cannot reach. A hand held Plier that has many uses, assembling animal cages, repairing fencing, netting and barbed wire.

Takes the CFH35/L range of loose clips available in HD Galvanised Steel and Stainless Steel. Packed in plastic tubs for easy use.

A1

CT-ACT1 Cliptool A1 Fence Puller

A small hand held claw that allows pulling and tensioning fencing, will also hold against a fence post allowing hands free fastening of the fence.
